Luxury Eco Lodges

## Kilmacolm Eco Homes

### Where Luxury meets Nature

Nestling within the secluded countryside of the exclusive enclave of Kilmacolm, yet only minutes from the cosmopolitan city of Glasgow, Kilmacolm Loch Estate offers sumptuous country living at its stunning development of eco-friendly homes.

Fully sustainable, the lodges are built to exacting standards using superior quality natural and reclaimed materials, and benefit from Kilmacolm Loch Estate's ethos of socially responsible living - today and every day.

### A Sense of Place

Sympathetic to their woodland setting, Kilmacolm Loch Estate homes have been intelligently and sensitively planned. Great care has been taken to ensure that each home in this small and prestigious development blends seamlessly - both visually and integrally - into its surroundings.

Natural and reclaimed materials have been used in construction wherever possible, blending with and enhancing the surrounding countryside. Slate and stone complement FSC wooden exteriors; large picture windows afford stunning views across the landscape, bringing the outdoors in and bathing the interior with natural light. As one would expect of a property of this calibre the interiors are contemporary and of a high specification, whilst maintaining its ethos for eco-friendly, sustainable living.

### Off-Grid Living

**Onsite Hydro Power Generation:** Kilmacolm Loch will also have its own hydro power system where homeowners can benefit from lower energy costs.

**Water Supply:** Kilmacolm will also have an independent water purification system from which homeowners will benefit from lower water rates.

All properties will still be connected to the mains power and water systems with the off-grid systems providing alternative power and water supply.

*Beautifully crafted homes  
blend seamlessly into their  
surroundings*
